APPLICATION APPROVED	DATE RECEIVED (mo., day, & yr.)	COMMENTS																																																																								
		CLEAN CLOSED, 11/28/95																																																																								
II. FIRST OR REVISED APPLICATION																																																																										
<small>Place an "X" in the appropriate box in A or B below (mark one box only) to indicate whether this is the first application you are submitting for your facility or a revised application. If this is your first application and you already know your facility's EPA/STATE I.D. Number, or if this is a revised application, enter your facility's EPA/STATE I.D. Number in Section I above.</small>																																																																										
A. FIRST APPLICATION (place an "X" below and provide the appropriate date)																																																																										
<div style="display: flex; justify-content: space-between;"><div style="width: 48%;"><input type="checkbox"/> 1. EXISTING FACILITY <small>(See instructions for definition of "existing" facility. Complete Item below.)</small> <table border="1" style="width: 100%; border-collapse: collapse; margin-top: 5px;"><tr><td style="width: 33%; text-align: center;">MO.</td><td style="width: 33%; text-align: center;">DAY</td><td style="width: 33%; text-align: center;">YEAR</td></tr><tr><td style="text-align: center;">08</td><td style="text-align: center;">01</td><td style="text-align: center;">1984</td></tr></table><p style="margin-top: 5px;"><small>*FOR EXISTING FACILITIES, PROVIDE THE DATE (mo., day, & yr.) OPERATION BEGAN OR THE DATE CONSTRUCTION COMMENCED (use the boxes to the left)</small></p><p style="margin-top: 5px;"><small>*The date construction of the Hanford Facility commenced.</small></p></div><div style="width: 48%;"><input type="checkbox"/> 2. B. REVISED APPLICATION (place an "X" below and complete Section I above)																																																																										
<div style="display: flex; justify-content: space-between;"><div style="width: 48%;"><input checked="" type="checkbox"/> 1. FACILITY HAS AN INTERIM STATUS PERMIT</div><div style="width: 48%;"><input type="checkbox"/> 2. FACILITY HAS A FINAL PERMIT</div></div>																																																																										
III. PROCESS - CODES AND CAPACITIES																																																																										
A. PROCESS CODE - Enter the code from the list of process codes below that best describes each process to be used at the facility. Ten lines are provided for entering codes. If more lines are needed, enter the code(s) in the space provided. If a process will be used that is not included in the list of codes below, then describe the process (including its design capacity) in the space provided on the (Section III-C).																																																																										
B. PROCESS DESIGN CAPACITY - For each code entered in column A enter the capacity of the process.																																																																										
1. AMOUNT - Enter the amount.																																																																										
2. UNIT OF MEASURE - For each amount entered in column B(1), enter the code from the list of unit measure codes below that describes the unit of measure used. Only the units of measure that are listed below should be used.																																																																										
<table style="width: 100%; border-collapse: collapse;"><thead><tr><th style="width: 30%; text-align: left;">PROCESS</th><th style="width: 10%; text-align: center;">PRO- CESS CODE</th><th style="width: 20%; text-align: left;">APPROPRIATE UNITS OF MEASURE FOR PROCESS DESIGN CAPACITY</th><th style="width: 30%; text-align: left;">PROCESS</th><th style="width: 10%; text-align: center;">PRO- CESS CODE</th><th style="width: 20%; text-align: left;">APPROPRIATE UNITS OF MEASURE FOR PROCESS DESIGN CAPACITY</th></tr></thead><tbody><tr><td colspan="6">Storage:</td></tr><tr><td>CONTAINER (barrel, drum, etc.)</td><td style="text-align: center;">S01</td><td>GALLONS OR LITERS</td><td>TANK</td><td style="text-align: center;">T01</td><td>GALLONS PER DAY OR LITERS PER DAY</td></tr><tr><td>TANK</td><td style="text-align: center;">S02</td><td>GALLONS OR LITERS</td><td>SURFACE IMPOUNDMENT</td><td style="text-align: center;">T02</td><td>GALLONS PER DAY OR LITERS PER DAY</td></tr><tr><td>WASTE PILE</td><td style="text-align: center;">S03</td><td>CUBIC YARDS OR CUBIC METERS</td><td>INCINERATOR</td><td style="text-align: center;">T03</td><td>TONS PER HOUR OR METRIC TONS PER HOUR; GALLONS PER HOUR OR LITERS PER HOUR</td></tr><tr><td>SURFACE IMPOUNDMENT</td><td style="text-align: center;">S04</td><td>GALLONS OR LITERS</td><td></td><td></td><td></td></tr><tr><td colspan="6">Disposal:</td></tr><tr><td>INJECTION WELL</td><td style="text-align: center;">D80</td><td>GALLONS OR LITERS</td><td>OTHER (Use for physical, chemical, thermal or biological treatment processes not occurring in tanks, surface impoundments or incinerators. T04

The 200 West Area Ash Pit is located in the 200 West Area of the Hanford Facility. The Ash Pit Deomlotion Site occupied only a small portion, an area 6 meters (20 feet) by 6 meters (20 Feet), of the larger 200 West Area Ash Pit. The Ash Pit Demolition Site was used to detonate explosive discarded chemical products used on the Hanford Site. The process design capacity for treatment at the Ash Pit Demolition Site was 150 gallons (568 liters) per day.

IV. DESCRIPTION OF DANGEROUS WASTES

A. **DANGEROUS WASTE NUMBER** - Enter the four digit number from Chapter 173-303 WAC for each listed dangerous waste you will handle. If you handle dangerous wastes which are not listed in Chapter 173-303 WAC, enter the four digit number(s) that describe the characteristics and/or the toxic contaminants of those dangerous wastes.

B. **ESTIMATED ANNUAL QUANTITY** - For each listed waste entered in column A estimate the quantity of that waste that will be handled on an annual basis. For each characteristic or toxic contaminant entered in column A estimate the total annual quantity of all the non-listed waste(s) that will be handled which possess that characteristic or contaminant.

C. **UNIT OF MEASURE** - For each quantity entered in column B enter the unit of measure code. Units of measure which must be used and the appropriate codes are:

ENGLISH UNIT OF MEASURE CODE		METRIC UNIT OF MEASURE CODE	
POUNDS	P	KILOGRAMS	K
TONS	T	METRIC TONS	M

If facility records use any other unit of measure for quantity, the units of measure must be converted into one of the required units of measure taking into account the appropriate density or specific gravity of the waste.

D. PROCESSES

1. PROCESS CODES:

For listed dangerous waste: For each listed dangerous waste entered in column A select the code(s) from the list of process codes contained in Section III to indicate how the waste will be stored, treated, and/or disposed of at the facility.

For non-listed dangerous wastes: For each characteristic or toxic contaminant entered in Column A, select the code(s) from the list of process codes contained in Section III to indicate all the processes that will be used to store, treat, and/or dispose of all the non-listed dangerous wastes that possess that characteristic or toxic contaminant.

Note: Four spaces are provided for entering process codes. If more are needed: (1) Enter the first three as described above; (2) Enter "000" in the extreme right box of item IV-D(1); and (3) Enter in the space provided on page 4, the line number and the additional code(s).

2. PROCESS DESCRIPTION: If a code is not listed for a process that will be used, describe the process in the space provided on the form.

NOTE: DANGEROUS WASTES DESCRIBED BY MORE THAN ONE DANGEROUS WASTE NUMBER - Dangerous wastes that can be described by more than one Waste Number shall be described on the form as follows:

- Select one of the Dangerous Waste Numbers and enter it in column A. On the same line complete columns B, C, and D by estimating the total annual quantity of the waste and describing all the processes to be used to treat, store, and/or dispose of the waste.
- In column A of the next line enter the other Dangerous Waste Number that can be used to describe the waste. In column D(2) on that line enter "Included with above" and make no other entries on that line.
- Repeat step 2 for each other Dangerous Waste Number that can be used to describe the dangerous waste.

EXAMPLE FOR COMPLETING SECTION IV (shown in line numbers X-1, X-2, X-3, and X-4 below) - A facility will treat and dispose of an estimated 900 pounds per year of chrome shavings from leather tanning and finishing operation. In addition, the facility will treat and dispose of three non-listed wastes. Two wastes are corrosive only and there will be an estimated 200 pounds per year of each waste. The other waste is corrosive and ignitable and there will be an estimated 100 pounds per year of that waste. Treatment will be in an incinerator and disposal will be in a landfill.

The Ash Pit Demolition Site was used for treatment of shock-sensitive or potentially explosive chemical waste. This waste exhibited the dangerous waste characteristic of ignitability (D001), corrosivity (D002), and reactivity (D003). Some of the compounds also exhibited the dangerous waste characteristic of toxicity (D007) and some compounds were known to be discarded chemical products (P003, U019, U056, U098, U108, U112, U117, U133, U135, U154, U213, and U220). The waste might have the state-only designations for toxic extremely hazardous (WT01) or dangerous waste (WT02), persistent extremely hazardous (WP01), and carcinogenic dangerous waste (WC02). The estimated annual quantity of waste of 1,000 kilograms (2,205 pounds) represents the total amount of dangerous waste that is believed to have been treated at the Ash Pit Demolition Site.

V. FACILITY DRAWING **Refer to attached drawing(s).**

VI. PHOTOGRAPHS **Refer to attached photograph(s).**

All existing facilities must include photographs (*aerial or ground-level*) that clearly delineate all existing structures; existing storage, treatment and disposal areas; and sites of future storage, treatment or disposal areas (*see instructions for more detail*).

VII. FACILITY GEOGRAPHIC LOCATION **This information is provided on the attached drawing(s) and photograph(s).**

LATITUDE (<i>degrees, minutes, & seconds</i>)					LONGITUDE (<i>degrees, minutes, & seconds</i>)				

VIII. FACILITY OWNER

- ☒ A. If the facility owner is also the facility operator as listed in Section VII on Form 1, "General Information", place an "X" in the box to the left and skip to Section IX below.
- ☐ B. If the facility owner is not the facility operator as listed in Section VII on Form 1, complete the following items:

1. NAME OF FACILITY'S LEGAL OWNER

2. PHONE NO. (area code & no.)

3. STREET OR P.O. BOX

4. CITY OR TOWN

5. ST.

6. ZIP CODE

IX. OWNER CERTIFICATION

I certify under penalty of law that I have personally examined and am familiar with the information submitted in this and all attached documents, and that based on my inquiry of those individuals immediately responsible for obtaining the information, I believe that the submitted information is true, accurate, and complete. I am aware that there are significant penalties for submitting false information, including the possibility of fine and imprisonment.
